26th Annual Meeting

*American Society
of Preventive Oncology*

March 10-12, 2002

Hyatt Regency Hotel
Bethesda, Maryland

American Society of Preventive Oncology

26th Annual Meeting

Program Chair:

Bruce J. Trock, PhD

Johns Hopkins Medical Institutions

This meeting is sponsored by The American Society of Preventive Oncology, The Cancer Research Foundation of America, and a conference grant from the National Institutes of Health/National Cancer Institute.

The **American Society of Preventive Oncology** is an active and growing organization that is striving to: 1) promote the exchange and dissemination of information and ideas relating to cancer prevention and control; 2) identify and stimulate research areas in cancer prevention and control; and 3) foster the implementation of programs in cancer prevention and control.

Meetings of the **American Society of Preventive Oncology** are organized for professionals in clinical, educational or research disciplines who appreciate the challenges of a multidisciplinary scientific forum and who are committed to a comprehensive approach to cancer prevention and control.

Special Acknowledgements

The ASPO Executive Committee offers special thanks to Program Chair, **Dr. Bruce Trock**, for his extraordinary commitment in facilitating the development of the program for this meeting.

The Executive Committee also wishes to thank the co-sponsors of this 26th Annual Meeting. The sponsors have given the Program Committee complete latitude in choosing the speakers and topics which are underwritten by their contributions.

The Board of Scientific Advisors (BSA) of the National Cancer Institute (NCI)

believes it is important to interact with and receive feedback from the clinical, population science and laboratory research communities affected by NCI policies. BSA Members and NCI Staff invite conference participants to join them for this session. A brief presentation will be given by NCI Staff emphasizing the status of grant funding, the By-Pass budget, and the status of several new initiatives. The brief presentation will be followed by an open question and answer period. The NCI is committed to providing a written response to the Society concerning issues raised during the session. The BSA hopes that conference participants will take advantage of this opportunity to raise their concerns.
