

# ASPO 2018 – Roosevelt Hotel, New York, NY

## SATURDAY, MARCH 10, 2018

- Noon – 3:00pm **Mock Study Section** (limited to 20 participants)
- 3:00pm – 7:00pm **Cancer Prevention & Control Associate Directors/Program Leaders Meeting - Part 1**  
(Invitation Only) **Organizer:** Electra Paskett, PhD, Ohio State University

## SUNDAY, MARCH 11, 2018

- 8:00am – 5:00pm **Registration**
- 8:00am – Noon **Cancer Prevention & Control Associate Directors/Program Leaders Meeting - Part 2**  
(Invitation Only)
- 9:00am – Noon **New Investigators Workshop** (Invited Applicants Only)  
**Organizer:** Judith Jacobson, DrPH, MPH, Columbia University
- 12:30pm – 3:30pm **Working Lunch Meeting of the ASPO Executive Committee**  
(invitation only)
- 1:00pm – 3:45pm **ASPO Junior Members Sessions**  
**Session 1:** Negotiation: Strategies and Best Practices  
**Co-Chairs:** Alexandra White, PhD, National Cancer Institute, and Alicia Best, PhD, University of South Florida
- Session 2:** Industry vs. Academia: Making a Decision for the Next Step in Your Career  
**Co-chairs:** Adriana Coletta, PhD, UT MD Anderson Cancer Center, and Heather Leach, PhD, Colorado State University
- 3:00pm – 3:45pm **Meeting of NCI R25T Training Program Principal Investigators**  
**Organizer:** Shine Chang, PhD, UT M.D. Anderson Cancer Center
- 4:00pm – 4:30pm **OPENING SESSION OF THE ASPO GENERAL MEETING**  
**ASPO Welcome:** Peter Kanetsky, PhD, Moffitt Cancer Research Center, ASPO President
- 4:30pm – 5:00pm **Cullen Tobacco Address:** TBA
- 5:00pm – 5:30pm **Fraumeni Distinguished Achievement Award Address:** TBA
- 5:30pm – 7:00pm **Symposium 1**  
Grand Ballroom **Can Primary and Secondary Prevention be Improved through Precision Medicine?**
- A panel discussion with experts in public health genomics, epidemiology, behavioral science, health care systems delivery focused on reviewing the promise and pitfalls of targeting primary and secondary cancer prevention based on genomics and other molecular markers in addition to standard risk assessment through family history and risk factors.

The goal of the panel is to bring together expert in health care delivery systems to discuss the challenges in implementation with behavioral scientists with research expertise in measuring uptake and barriers of genomic testing. The panel will discuss how issues with implementation and individual choice for testing may help guide the types of questions that are addressed with primary research by genetic and molecular epidemiologists to enhance long-term implementation.

**Chair: Mary Beth Terry, PhD**, Columbia University

**Discussant: Diana Buist, PhD**, Kaiser Permanente Washington

**Kathy J. Helzlsouer, MD, MHS**, National Cancer Institute

**Nazneen Aziz, PhD**, Kaiser Permanente Research Bank

**Kim Kaphingst, PhD**, University of Utah

7:00pm – 8:00pm

**Networking Mixer at hotel**

8:00pm

**Dinner on your own**

## **MONDAY, MARCH 12, 2018**

8:00am – 9:30am

**Concurrent Breakfast Sessions**

**Special Interest Group Breakfast 1: Molecular Epidemiology & the Environment**

Organizer: Mack Ruffin, MD, Penn State University

**Special Interest Group Breakfast 2: Lifestyle Behaviors, Energy Balance & Chemoprevention**

Organizer: Elisa Bandera, MD, PhD, Rutgers Cancer Institute of New Jersey

9:30am – 9:45am

**Break**

9:45am – 11:15am

**Symposium 2: Premalignant Conditions and Prevention**

Grand Ballroom

This symposium will summarize current knowledge on precursor conditions and their respective malignancies, including aspects of basic and clinical science, risk factors, and potential or translation-ready implications for primary and secondary prevention. We will focus on three diverse examples, including bladder cancer (and pre-neoplastic forms), multiple myeloma (and monoclonal gammopathy of undetermined significance or MGUS) and melanoma (and dysplastic nevi). The three cancer-specific presentations will be followed by synthesizing comments by a Discussant and a moderated group discussion.

**Chair: Brenda Birman, ScD**, Harvard University

**Ola Landgren, MD, PhD**, Memorial Sloan-Kettering Cancer Center

**Allan Halpern, MD**, Memorial Sloan-Kettering Cancer Center

**Carlos Cordon-Cardo, MD, PhD**, Mount Sinai School of Medicine

**Discussant: Paolo Boffetta, MD**, Mount Sinai School of Medicine

12:15am – 1:45pm

**Lunch on your own**

1:45pm – 3:15pm	<p><b>Concurrent paper sessions</b> (chosen from top-ranked abstracts)  <b>Session 1:</b> TBA  <b>Session 2:</b> TBA</p>
3:15pm – 3:30pm	<p><b>Break</b></p>
3:30pm – 5:00pm Grand Ballroom	<p><b>Symposium 3</b>  <b>The Opportunities and Challenges of Electronic Health Records in Cancer Prevention</b></p>
	<p>This symposium will provide insights into the use of electronic health records (EHRs) in cancer prevention and control, provide specific examples illustrating the opportunities and challenges in use of EHRs for research and prevention, and to describe challenges and limitations of EHRs and potential approaches to addressing these challenges.</p>
	<p><b>Marilyn Kwan, PhD</b>, Kaiser Permanente Northern California  Using EHRs in cancer etiology research: lessons learned from research on medical radiation exposure and risk of childhood cancers</p>
	<p><b>Celette Skinner, PhD</b>, University of Texas Southwestern  The role of EHRs in understanding opportunities to improve colorectal cancer screening</p>
	<p><b>Jennifer Elston-Lafata, PhD</b>, University of North Carolina, Chapel Hill  Implementing strategies to improve colorectal cancer screening using EHR platforms to incorporate into clinical workflows</p>
	<p><b>Maureen Smith, PhD</b>, University of Wisconsin  Placing EHRs in cancer prevention and control research in context</p>
5:00pm – 5:30pm	<p><b>ASPO Business Meeting</b> (open to all)</p>
5:30pm – 7:30pm	<p><b>Poster Session and Reception</b>  Presentation of Best Poster Awards  Presentation of Electra Paskett Scholarship Award  Presentation of American Cancer Society Travel Awards</p>
7:30pm	<p><b>Dinner on your own</b></p>

# TUESDAY, MARCH 13, 2018

7:45am – 9:00am	<b>Concurrent Breakfast Sessions</b> <b>Special Interest Group Breakfast:</b> Early Detection & Risk Prediction Organizer: Mira Katz, PhD, Ohio State University  <b>Special Interest Group Breakfast:</b> Survivorship & Health Outcomes/Comparative Effectiveness Organizer: Katherine Sterba, PhD, Medical University of South Carolina
9:00am - 10:00am	<b>Concurrent Career Development Sessions</b> <b>1. ASPO Junior Members:</b> NCI Session on Career Development for Doctoral Students, Postdoctoral Fellows, and Junior Faculty (organized by Junior Member SIG) <b>2. Mid- and Senior Faculty Development - TBA</b>
10:00am – 10:15am	<b>Break</b>
10:15am – 11:45am Grand Ballroom	<b>Symposium 4</b> <b>Targeting inflammation for Cancer Prevention</b> Chair, <b>Adetunji Toriola, PhD</b> , Washington University in St. Louis  This symposium will bring together experts from across complementary disciplines including laboratory, diet and nutrition, and behavioral sciences to highlight current advances in research on inflammation and prevention of cancer (primary, secondary, and/or tertiary) with the goal of providing an appreciation for complex landscape of this research area while highlighting challenges and benefits of including measures of inflammation in prevention research.  <b>Andrew Dannenberg, MD</b> , Weill Cornell Medicine Molecular mechanisms of inflammation  <b>Susan Steck, PhD, MPH, RD</b> , University of South Carolina Anti-inflammatory diets and cancer  <b>Barbara L. Andersen, PhD</b> , Ohio State University
11:45am – 12:45pm	<b>Lunch on your own</b>
12:45pm – 2:15pm	<b>Concurrent Paper Session</b> (chosen from top-ranked abstracts) Paper Session 3: TBA Paper Session 4: TBA
2:20pm – 3:30pm Grand Ballroom	<b>Cancer Prevention Moving Forward: A Panel Discussion of Visionary Leaders in the Field</b>
3:30pm	<b>Conference Concludes</b>
