

Ramzi G. Salloum, PhD, MA, MBA, is Assistant Professor in the Department of Health Outcomes and Biomedical Informatics at the University of Florida College of Medicine and a member of the University of Florida Health Cancer Center. His research considers the economic implications of the implementation and dissemination of cancer prevention and control strategies across the cancer control continuum. Dr. Salloum earned a bachelor's degree in management information systems, a Master of Business Administration degree, and a Master of Arts degree in Economics from the University of South Florida, and a doctorate degree in economics from Wayne State University. He completed NCI-sponsored postdoctoral training in cancer care quality at the University of North Carolina – Chapel Hill Gillings School of Global Public Health. He was an assistant professor at the University of South Carolina Arnold School of Public Health from 2013-2015 before joining the University of Florida. Dr. Salloum is the recipient of two NCI-supported fellowships from the Health Care Systems Research Network (HCSRN)'s Cancer Research Network (CRN) Scholars Program (2015-2017); and the Mentored Training for Dissemination and Implementation Research in Cancer (MT-DIRC) Program (2016-2018). Given his research experiences in studying the provision of healthcare services, his goal is to increase the implementation and dissemination of innovative value-added cancer prevention and control strategies by improving our understanding of patient values and preferences, and enhancing stakeholder engagement. Dr. Salloum has more than 100 peer-reviewed publications in cancer prevention and control. He currently serves as an expert panel member of the American Academy of Pediatrics (AAP) Tobacco Consortium and as the UF Health Cancer Center representative to the State of Florida Cancer Control and Research Advisory Council.

Dr. Salloum joined ASPO as a post-doctoral trainee in 2012, and since then, has actively contributed to ASPO's mission. He served as Vice Chair (2017-2019) and Chair (2019-2021) of the Global Cancer Research SIG and has worked to advance an implementation science agenda in global cancer research. He has also served as a poster judge at several annual meetings. As Secretary-Treasurer of ASPO, Dr. Salloum would work closely with the Executive Director to prepare the budget and present financial documents to the membership at the Annual Meeting and would play an important role in the dissemination of scientific information for the Society.
